– FOR IMMEDIATE RELEASE –

## **Fred Hueston Named New Trainer at International Surface Fabricators Association**

### *ISFA Brings On New Stone Fabrication Instructor*

Fred Hueston was hired to serve as a new Stone Fabrication Instructor at ISFA. He will be a part of ISFA's On-Site Program, which is a customized training program for members designed to meet the needs of businesses.

Previously, Hueston served as technical advisor, specification writer and problem solver for numerous projects across the US, Canada, Asia and Europe. Such as the US Government, Federal Court of Appeals in San Francisco, Walt Disney World Company, and Kennedy Space Center. In addition to more than 35 years of industry experience, he has published over 100 articles on stone installation, care and restoration in both United States and foreign publications and journals.

A national known consultant and the founder of Stone Forensics, Hueston has written for and worked with numerous industry publications, and has also made several appearances on television shows including the Discovery Channel and HGTV. Hueston is a certified master stone craftsman, an Architectural Conservator and a member of ASTM (American Society for Testing Materials) C-18 committee. Hueston is responsible for more 30 books on stone and tile and has produced 10 instructional videos.

Additionally, he writes a syndicated newspaper column "*Around the House*" for several papers across the United States.

Hueston earned his Bachelor of Science degree in Chemical and Physical Science.

*For more information, please feel free to contact Fred Hueston directly at [fhueston@gmail.com](mailto:fhueston@gmail.com).*
